Design Icon: **DAVID ROCKWELL**

Icon is seemingly too small a word to describe the force that David Rockwell has become across multiple disciplines, but in the world of architecture and design, specifically as it relates to hospitality, he is a demigod. David Rockwell's work is rooted in his sense of play and possibility—an endless curiosity that continually drives him to

ask, "What if?" Transforming perceptions of space by twisting scale, proportion and light, the term Rockwellian has now become part of the lexicon of design when describing his immersive aesthetic. When Dream Hotel Group decided to reinvent its first boutique concept, The Time, and develop a brand around it, Rockwell was the first call made.

Lighting is everything. Rockwell's progression from light to dark leads to more intimate experiences as guest move throughout their stay. Hidden moments lie behind gathered fabric walls that create private spaces in public view.
